Portfolio

Objective:

Motivated and detail-oriented MCA graduate with a strong foundation in Frontend Development, Programming, and Database Management. Proficient in HTML, CSS, JavaScript, C, C++, Java, PHP, MySQL, and Git/GitHub. Seeking a Frontend Developer role where I can apply my technical expertise, build responsive and user-friendly web applications, and contribute to organizational growth while continuously enhancing my skills.

Educational Qualification:

Standard	Institute	Board/University	Percentage	Class
M.C.A	Royal institute of Technical Education Latur	S.R.T.M.U.Nanded	75%	I st
B.C.A	Ch. Shivaji Mahavidyalaya, Udgir	S.R.T.M.U.Nanded	73.80%	I st
H.S.C	Ch. Shivaji Mahavidyalaya, Udgir	Latur	80.00%	Dist

Projects:

1 . FoodCart (Frontend Web Application)

Description:

Developed a responsive Food Ordering System using HTML, CSS, and JavaScript. The application allows users to browse food items, search products, add items to the cart, and manage a wish list, place orders, and track order status through a modern and user-friendly interface.

Key Responsibilities:

- Designed responsive and attractive UI using HTML5 and CSS3.
- Developed interactive features using JavaScript.
- Implemented user authentication (Login & Registration).
- Created Cart, Wish list, Checkout, and Order tracking modules.
- Added search, category filtering, and responsive navigation.
- Managed user and order data using Local Storage.
- Optimized website performance and mobile responsiveness.

Technologies Used:

HTML5, CSS3, JavaScript, Local Storage, Git & GitHub

2. BrewNest Coffee & Cafe

Description:

A modern, responsive coffee shop web application designed to provide a smooth online ordering experience. The project includes menu browsing, search and category filtering, cart and wishlist management, checkout, reservations, order tracking, user authentication and profile-based order management.

Key Responsibilities:

- Designed and developed responsive multi-page user interfaces using HTML and CSS.
- Implemented interactive features such as search, category filters, cart, wishlist and checkout using JavaScript.
- Developed reservation, order tracking and user account flows.
- Implemented client-side data management using LocalStorage.
- Added responsive layouts, animations, toast notifications and consistent UI across pages.
- Tested and debugged page navigation, forms and major user interactions across desktop and mobile devices.

- Technologies Used:

HTML5, CSS3, JavaScript, PHP, MySQL, XAMPP

3. Smart Job Portal

Description:

Developed a web-based Smart Job Portal that connects students with recruiters by providing job listings, online applications, user authentication, and application management through an admin dashboard.

Key Responsibilities:

- Developed frontend using HTML, CSS, and JavaScript.
- Implemented backend functionality using PHP.
- Designed and managed MySQL database.
- Developed secure Login and Registration system.
- Created Job Posting and Job Application modules.
- Built Admin Dashboard for managing users, companies, and jobs.
- Integrated CRUD operations for jobs and applications.
- Tested and debugged the application for smooth functionality.

- Technologies Used:

HTML5, CSS3, JavaScript, PHP, MySQL, XAMPP

Technical Skills:

- Programming Languages : (C, C++, Java, JavaScript, PHP)
- Frontend : HTML, CSS, JavaScript, Responsive Web Design
- Database : MySQL
- Operating System : (Windows, Linux)
- Tools : VsCode, XAMPP, phpMyAdmin
- Core Concepts : OOP, DBMS, API
- Computer basics
- Technical Support

Soft skills:

- | | |
|-----------------------|--------------------|
| ▪ Communication | Time Management |
| ▪ Problem Solving | Decision Making |
| ▪ Critical Thinking | Self-Motivation |
| ▪ Planning | Leadership |
| ▪ Creativity | Team Collaboration |
| ▪ Continuous Learning | Data Analysis |
| ▪ Quick Learner | Risk Management |
| ▪ Fast learning | |

Key Responsibilities:

- Developed responsive and user-friendly web interfaces using HTML5, CSS3, and JavaScript.
- Converted UI/UX designs into fully functional web pages.
- Built reusable and maintainable front-end components.
- Implemented responsive layouts for desktop, tablet, and mobile devices.
- Optimized website performance, loading speed, and accessibility.
- Integrated frontend with backend APIs and databases where required.
- Identified and resolved UI bugs to improve user experience.
- Maintained clean, scalable, and well-structured code.
- Used Git and GitHub for version control and project collaboration.
- Tested and debugged applications to ensure cross-browser compatibility.

Awards and Achievements:

- Participated in various Sports Events in College
- 3rd price in C poster presentation
- Member of the winning cricket team that secured 1st place in an inter-college tournament.

Personal Information:

- Interests : Learning new things, Web Development, UI/UX Design.
- Strength : Quick Learner, Problem Solving ,Communication, Team Collaboration

Note : Willing to work on any profile , will definitely give justice to that profile.

*The above mentioned information is authentic to the best of my knowledge.
